Subject: Request for Modification in NBC Format for School Buildings Seeking CBSE Affiliation

Respected Sir/Madam,

I am writing to respectfully bring to your attention the difficulties faced by educational institutions in complying with the current format of the National Building Code (NBC), particularly with respect to obtaining a Building Safety Certificate as mandated by the Central Board of Secondary Education (CBSE) for affiliation purposes.

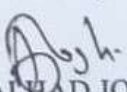

The existing NBC format used by the Public Works Department does not align completely with the specific safety and structural requirements outlined by CBSE. As a result, schools are often required to make repeated modifications or seek clarifications, leading to unnecessary delays in the affiliation process.

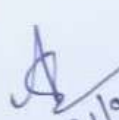

In light of this, we kindly request your good office to consider revising or supplementing the current NBC format with a school-specific format that addresses CBSE requirements — including detailed parameters related to fire safety, structural stability, sanitary conditions, and accessibility. This will greatly benefit institutions aspiring for CBSE affiliation, ensuring compliance in a timely and streamlined manner.

We would highly appreciate your consideration of this matter and look forward to a positive response. Our institution is also willing to extend cooperation in the drafting or review of the revised format if required.

Thanking you in anticipation.

Yours sincerely,

MR. ALHAD JOSHI
